Education

Doctor of Philosophy in Economics, Australian National University 2019–2026
Committee: Sephorah Mangin, John Stachurski, Fedor Iskhakov

Bachelor of Actuarial Studies / Bachelor of Economics (Honours), Australian National University 2012–2017
Supervisor: John Stachurski

Work Experience

Research Assistant/Developer, QuantEcon 2018, 2025–2026

- Collaborated with Thomas J. Sargent (2011 Nobel Laureate in Economics) and John Stachurski to build modules for the open-source `quantecon.py` library, used by the FRBNY, the IMF and leading graduate programs
- Reviewed and contributed to the technical content of all three Stachurski and Sargent textbooks (*Dynamic Programming I & II*, *Economic Networks*), giving written feedback on drafts; acknowledged by name in each
- Wrote lecture notebooks for the *Quantitative Economics with Python* series, explaining complex methods clearly

Associate Lecturer, Course Convenor and Head Tutor, Australian National University 2017–2023

- Wrote and convened courses as Associate Lecturer and led tutor teams as Head Tutor, coordinating tutors and allocating work across each teaching team
- Taught more than 3,000 students, presenting complex material clearly and adapting it to each audience, including international cohorts at Sungkyunkwan University and Peking University HSBC Business School
- Average SELT 4.9/5; nominee, ANU College of Business and Economics Award for Excellence in Teaching (2021)

Policy Analyst Intern, Tax Analysis Division, The Treasury (Australian Government) 2018

- Built a forecasting model in R and Excel from ATO data to estimate the budget impact of company loss tax offsets, informing advice on loss utilisation for future Budget measures
- Worked across agencies with the Productivity Commission to recommend git-based version control for Treasury modelling frameworks, improving the auditability and quality assurance of modelling that underpins policy advice

Research Analyst Intern, The Brattle Group 2018

- Drafted analysis for the ACCC on the Harper Review reforms, covering the new concerted practices prohibition and the misuse of market power provisions of the Competition and Consumer Act 2010
- Built a gas pipeline network model tracking domestic gas flows for the Australian Energy Regulator, also designed as an in-house tool for policy recommendations to position the firm for further consulting on gas infrastructure

Leadership and Professional Activities

Head Organiser, Income-Contingent Loans Research and Policy Conference, Australian National University 2022

- Ran the conference largely single-handedly, from program and logistics to sponsors and policy speakers

Co-founder/Investment Director, Australian National University Student Managed Fund 2016

- Sourced funding and set the investment mandate; helped coordinate with ANU to establish the fund as a course within the Research School of Finance, Actuarial Studies and Statistics

President, Australian National University Commerce Collective (now FMAA ANU) 2015

- Led the society linking ANU commerce students with industry, including sponsorship and careers events

Working Papers

"*Asset Price Dispersion, Monetary Policy and Macroprudential Regulation*" (Job Market Paper)
Scheduled presentations:
Workshop of the Australasian Macroeconomics Society (WAMS), University of Tokyo — Nov 2026
Search Workshop, University of California, Los Angeles — Dec 2026

"*Optimal Competitive Dispersion*" (with Sephorah Mangin and Yizhuo Zhang)
Scheduled presentations:
NBER/NSF/CEME Conference in Mathematical Economics, Carnegie Mellon University — Nov 2026
Asia-Pacific Industrial Organisation Conference (APIOC), Xiamen University — Dec 2026
Economic Theory Festival, Australian National University — Dec 2026

"*Asset Pricing with Collateral and Resale Premia*"

Research Experience

Research Assistant to Dr Ayushi Bajaj, Monash University — 2023
Research Assistant to Associate Professor Timothy Kam, Australian National University — 2021
Research Assistant to Professor Kieron Meagher, Australian National University — 2017

Teaching Experience

Associate Lecturer and Course Convenor, Australian National University — 2022–2023
- Graduate: Financial Economics; Undergraduate: Macroeconomics 1, Microeconomics 2
- Visiting: Computational Economics, Data Science for Economists (Sungkyunkwan University)

Teaching Assistant and Head Tutor, Australian National University — 2017–2022
- Graduate: Macroeconomic Theory, Advanced Econometrics I, Computational Methods in Economics, Macroeconomic Analysis, Applied Macro and Financial Econometrics, Optimisation for Economics, Economic Models and Introductory Econometrics
- Undergraduate: Macroeconomics 1, Econometrics II
- Visiting: Quantitative Economics (Peking University HSBC Business School)

Scholarships and Grants

Australian Government Research Training Program Full Stipend & Fee Offset Scholarships — 2019–2023
Australian Research Council Discovery Project PhD Fellowship — 2019–2023
Research Grant and Travel Grant, Research School of Economics, Australian National University — 2021–2022

Professional Development

Heterogeneous Agents and Continuous Time Modelling, Graduate Coursework, University of Oxford — 2020
Alternative Investments, Summer School, London School of Economics — 2014

Skills, Citizenship and Clearance

Programming: Python, Rust, R, Julia; Numba, JAX, Tasmanian, TensorFlow, QuantEcon
Tools: Git, Excel, LaTeX, Jupyter, Bash/Zsh
Languages: English (native). Citizenship: Australian. Security clearance: Baseline (previously held)
